Experience

Advanced Micro Devices (AMD)
21 yrs 11 mos

Product Reliability Engineering
Mar 2012 - Present · 11 yrs 1 mo
Austin, Texas Area

• Define and execute product reliability qualification for APU and Game Console products.
• Develop analytical tools for early detection of product reliability and test

margin issues.
• Analysis of extrinsic reliability modes during HTOL product qualifications.
• Perform reliability modeling estimation across varying usage and operating life conditions.

Member of Technical Staff, Product Development Engineering
Jan 2009 - Mar 2012 · 3 yrs 3 mos
Austin, Texas Area

• Interface with foundry partners, product engineering, design and program management from planning through execution phase of new product introductions. Solve foundry process and product design issues to enable successful manufacturing ramp.

Sr. Device Engineer, Technology and Integration
Nov 2007 - Jan 2009 · 1 yr 3 mos
Dresden, Germany

• Expatriate Assignment at AMD Fab30 (now GlobalFoundries).
• Lead engineer responsible for developing 65nm/45nm CMOS transistor technology, transfer of device development and definition into high volume manufacturing.

Recommendations

Received   Given

Frank Casilio · 3rd
Senior Director, Product Development Engineering
February 16, 2016, Frank worked with Vassil but on different teams

I have worked with Vassil since 2005 on various AMD product development
projects. He has excellent project management and problem solving skills
coupled with hands-on experience in fab process technology and product
reliability. He is consistent, dependable and manages his projects effectivel...

Majed Anani · 3rd
Wireless Reliability Technologist at Apple
July 28, 2015, Majed was senior to Vassil but didn't manage Vassil directly

I recognize Vassil as a highly talented engineer with broad technical knowledge in the semiconductor industry fab processes and packaging level, and a talented engineer with a solid background in project and test management. Vassil is able to find solutions to difficult engineering...

Amado Ramirez, III · 3rd
Foundry Operations | Product & Test Engineering | Product Development Engineering | Technology Development
October 29, 2014, Amado managed Vassil directly

I am pleased to write a recommendation for Vassil as he has consistently contributed to several engineering teams - high quality results delivered in a timely manner. Vassil has very good problem solving abilities and can effectively communicate across engineering teams, business units, and...
